B.3cf. Board's reference E.3225/37-1, dated 15.7.1937.

******

I submit a rent-data statement and revised estimates in triplicate in respect of the additional electrical fittings necessary for the Collector's bungalow at Mangalore. The estimate shows separately the improvements already carried out by Mr. Gawne and met from his own pocket; their cost is Rs.128/

2. The necessity for the three additional fans proposed to be put up is explained in paragraph 3 of the reports ------- accompanying the estimates. A separate fan circuit is ------- necessary as in the absence of a separate meter, a rate of ---- 6 annas a unit is being charged to the occupant instead of the usual rate of 2½ annas a unit for the consumption of electric current for the fans.

3. I request that the Board may be pleased to obtain the administrative approval of Government for these proposals and communicate it to me as early as possible.

REFERENCE. No. E 3225/37-3, dt 3-12-37

The Collr. of S.Kanara has subd. an estimate for carrying out certain electrical fittings in the Collr.'s bungalow at Mangalore. The estimate includes a provision of Rs.128/- for certain fittings carried out already by the then Collr. (Mr.Gawne) and paid from his own pocket.

The bungalow was acquired in 1936 at a total cost of Rs.48,557 which included a sum of Rs.220 towards the cost of lead-in- electric wires to the house paid by the Collr. (Mr.Gawne) personall The Board presumes that this amount was paid to him. The Collr. is requested to state whether the presumption is correct.

2. As regards the fittings included in the present estimate and stated to have been carried out by Mr. Gawne and paid from his pocket, the Boa finds that there is no reference to these improvements in his report Confdl. No.7961 dated 30-9-35 relating

He has presumably not preferred any claim in respect of them in that report and the improvements were apparently carried out subsequently. Mr. Gawne is requested to state when the improvements were actually carried out by him and also whether he expected to be paid for these improvements and, if so, why ~~did~~ he ~~did not~~ prefer no claim for them so far.

The estimates in triplicate ~~and the~~ together with its enclosures ~~thereto~~ recd. from the Collr. of S.Kanara are enclosed for reference and return.

SPARE COPIES

With regard to the electrification of the Collector's bungalow at Mangalore I should explain first of all how the work was done. The three owners of the bungalow were not prepared to spend very much money on the electrification especially as the distance of the bungalow from the street made the initial cost of the lead-in wires considerable if not prohibitive. A solution was only found when I was able to take my lead-in wires from a continuation of the lead-in wires of a bungalow immediately to the north of the Collector's bungalow. Before that the calculation had been for lead-in wires from the south. The cost of the lead-in as taken from the last post of the private wires on the north side of the bungalow amounted to Rs.220/- This amount I paid myself and claimed in the acquisition proceedings and it was paid to me.

2. With regard to the actual work in the bungalow, again the cost had to be considered very carefully and the land lords were not willing to pay more than Rs.1200 The bungalow is an extensive one and it was found that this amount would not provide for proper fittings or sufficient fans. Therefore the punkah was left in the dining room and one fan was fitted in the drawing room, one in a bed room

one in the office room and one in the verandah. At the same time the fittings of the lights had to be kept down to the minimum and in the drawing room it was only possible to supply four wall plugs leaving the tenant to put in his own standard lamps. The main verandah of the bungalow is a most noticeable feature being about 100 feet long and very broad. To illuminate this it was essential to use some thing better than plain bulbs with a shade. Therefore three hanging bowls were fitted up. One hanging bowl was also fitted up in the drawing room. Thus although it may be strictly accurate to say that these fittings were put in because the fittings provided by the land lords were inadequate at the same time it has got to be stated that the land lords only intended to put in an installation to bring the total cost to them to not more than Rs.1200. This cost of Rs.1200 was to be recovered by them in an addition to the rent of Rs.10 per month.

3. I did not claim for the fittings in the acquisition proceedings as I did not think that it would be proper but I think it was the Executive Engineer who suggested that these fittings will be taken over by the Public Works Department at a valuation. Therefore I left the matter at that. I understand that the Madura Collector's bungalow which is also a spacious bungalow of the old fashioned sort has also got bowl fittings, Since these fittings are really the only possible means of lighting adequately very big rooms.

4. I have been in correspondence with the Executive Engineer, West Coast Division, for sometime with regard to the valuation due to me for these fittings and on the 24th September I wrote to the Executive Engineer and said that as I had not received payment I would make use of these fittings in my flat at 'Cathedral House', Madras. Therefore I proposed to remove them. He informed me in

his endorsement of the 23rd September which crossed my letter to him that the valuation had been made and approved by the Electrical Engineer and as soon as the estimate was received approved, arrangements would be made for payment of the amount to me. I therefore replied to him that I would buy similar fittings in Madras and leave the fittings in the Mangalore bungalow. I have accordingly purchased four hanging bowls for the use of my flat in 'Cathedral House', Madras.

5. I return the estimate as I have no remarks to make on it. It was to be expected that sooner or later the punkah in the dining room would have to be replaced by fans and a hanging fan to be put in the other bed room. When I electrified the bungalow there was no anticipation that the Government would acquire it within two years.

Collector.

MEMORANDUM.

No. 176 C/38-1, dated the 21st January 1938.

*****

Electric installation - South Kanara - Mangalore - Collector's bungalow - Additional fittings.

Ref: Letter from the Collector of South Kanara, No. C. 2868/B-1/37, dated 1st October 1937, to the Board of Revenue.

The Collector states that a separate fan circuit to his bungalow is necessary as in the absence of a separate meter, a rate of 6 annas a unit is being charged to the occupant instead of the usual rate of 2½ annas a unit for the consumption of electric current for the fans. It is however observed that the rate for lights and fans at Mangalore is 6 annas per unit, that there is no separate rate for fans alone and that the rate of 2½ annas per unit is for heating and cooking if metered on a separate circuit. The Collector is requested to state whether the separate circuit proposed in the estimate is for fans and lights the existing circuit being utilized for energy supplied for heating and cooking.

K. Ramunni Menon,
Secretary to Government.

Abstract.

Electric installation - South Kanara - Mangalore - Collector's residence - Additional installation - Expenditure - Rs.660/- Approved.

PUBLIC WORKS DEPARTMENT.

G.O.No.Ms.392. Dated 26th February 1938.

Read the following paper:

(G) .O.No.464 dated 18th February 1936.
rom the Board of Revenue, No.E.3225/37-4, dated 3rd January 1937.

O R D E R:

The Government approve an expenditure of Rs. 660/- (Rupees six hundred and sixty only) on the provision of additional electric installation to the quarters of the Collector of South Kanara at Mangalore. They also approve the proposal that out of the amount referred to above, a sum of Rs.128/- (Rupees one hundred and twenty eight) be paid to Mr. E. M. Gawne, C.S. on account of the installations put up by him originally at his cost.

2. The expenditure may be met from the lump sum provision for minor works in the budget under "50. a Civil works - Original works - Buildings - General Administration."

(By order of His Excellency the Governor)

K. Ramunni Menon,
Secretary to Government.

*****

To I-A.

Please see the Collector's letter at p.1c.f.

2.It is seen from the report accompanying the estimate that Mr.Gawne, while he was Collr. of South Kanara, effected certain improvements to the electric installation in his official residence and met the expenditure from his own pocket and is proposed to pay him for it. As the residence is provided by Govt., no improvements should be made to it, without ~~the~~ proper sanction— vide para 173 of the P.W.D.Code.

The estimate now submitted by the Collr, provides for a seperate fan circuit for the bungalow and also for the works already carried out by Mr.Gawne and met from his own pocket. The cost of these works have not been seperately given in the estimate and ~~they have not also been indicated~~ it has not been indicated in the estimate which of the items relate to these improvements. The Collr. has not also sent the rent data statement. The procedure of including in an estimate, works already carried out in order to refund the amount spent on the works, does not seem to be authorised. The sanction of Govt. is necessary for this. The C.E. may be consulted in the matter after obtaining the rent data statement and the information at 'A' above, from the Collr.

Please see the Collr's letter at p. 5 cf

2. He has subtd a rent data Statement with prescribed form

and also the cost of the improvements with details carried out by Mr. Gawne himself. The items of improvements carried out by Mr. Gawne are those marked 'A' on p.3 of.(F) and the cost works out to Rs.128-5-0 The rates adopted for the various articles are said to b those in the Electrical Engineer's letter dated 30-3-37 but the Electrical Engr. has referred to G.O.No.96 W, dated 12-1-32 which lays down the standard scale of electric fittings for Govt. residences. It is not known whether the types of the articles provided for by Mr. Gawne are covered by the standard scale. Furth there is no indication to show that Mr. Gawne himself has raised the question of the refund of the cost of t improvements. No improvements to a building can be carried out without proper sanction of the competent authority. - vide para 173 of the P.W.D.Code. In the present case the procedure of including in the estimate the works already carried out by Mr. Gawne in order to refund the amount spent by him on the works, is against rules and procedure. The Electrical Engineer (General) may perhaps be requested u.o. to offer his remarks on the proposal to refund the cost of the improvements to Mr. Gawne and also on the portion marked 'B' above.

I have been unable to speak to Mr. Gawne about this on the telephone as he is in Camp. The best plan seems to be to delete this item (Rs.128) from the Estimate & prepare an addl. Estimate for articles accg. to Specification which cannot be repaired & Mr. Gawne's improvements then removed.

The question can now be raised of determining the subsidy for the proper ones as an agreed price leaving Mr. S. the option of accepting this or taking delivery of his improvements.

M

12/11

This bungalow including electric installation was recently acquired by the Govt. & says the T.E. Mr Gaunt's fittings were presumably part of the electric installation acquired. So why was he not paid for them by the Late Officer?

SECY.
13-NOV-47

To I A.

After M's remarks above.

The G.O. sanctioning the acquisition of the Coll's bungalow will be found at p. 29 c/f of (G). During the time of the acquisition, Mr. Gaunt himself was the Coll. - vide his report at pp. 7-21 c/f of the record of acquisition which includes a sum of Rs. 220/ as cost of lead-in electric wire & the house paid by the Coll. personally. The improvements now referred to in the

estimate relate to the provision of globes, pendants, etc. which are stated to have been supplemented by the Coll. and paid from his pocket. They do not appear to be covered by the item included in the cost of acquisition. A reference to the Coll. may be made.

In order.

17.11.31.

17/11

This won't do at all.

Can I explain to you the effect of Mr Gamon's enquiry which is for anyone whether he was paid anything. It is a most unlikely place to look and the correct practice for it is by entries in a subsequent page – a 50. presumably.

Do this all again properly.

(1) What we want to know is what claim Mr G. preferred & whether it was met in whole or part. This can be gleaned from records.

(2) Whether Mr G. expected to be paid for these prints (included in previous bill) & so why he did not claim for it. This file probably contains a reference to this.

18/11

Refce: Secy's remarks on p.5 above.

The available papers have been looked into and the following further note is submitted:

2. The Collector's bungalow at Mangalore was aquired in 1936. The valuation of the building for purposes of the aquisition was based on the capitalised rental for 20 years. The rent paid for the bungalow prior to aquisition was Rs.160/- of which Rs.10 was to cover the cost of the electric installation of lights and fans so far as it was put in by the owners. Thus the capitalised value of electric installation of Rs.2,000/- was included in the item of capitalised rent ~~amount~~ paid to the owners for the then existing electric installation. Besides this, a sum of Rs.220/- was also included to cover the cost of lead-in elctric wires to the house paid by the Collr. personally. This amount was presumably paid to the Collr.

Mr.Gawne was in Mangalore till 17-3-36. There is no reference to the improvements now in question in Mr.Gawne's report dated 30-9-35. He has not preferred any claim in respect of these improvements in that report. Apparently, these were carried out subsequently. This may however, be verified by a reference to him.

As regards the question whether Mr.Gawne expected to be paid for these improvements and if so why he did not claim for them, there is no reference in the papers except the report accompanying the estimate in which it is stated 'It is proposed to pay Mr.Gawne for these electric fittings'. A reference may be made to Mr.Gawne as suggested by Secretary.

For orders.

Reptee. M1's remarks on p4 abo

The electric fittings for which it i
now proposed, they Mr. Gaume were in existen
at the time of the acquisition of the bungl
at Mangalore. The cost of these fittings w
neither claimed by Mr. Gaume nor taken
into account in valuing the building
at the time of the acquisition Mr. Gaum
now explains that he did not claim
for them as he then considered that it
would not be proper to do so. Subsequ
to his taking charge as Comr. of
Chinglepet he opened correspondenc
with the Executive Engineer West
Coast division to find out whether
he could remove the fittings mad
by him at his own cost so that he
could make use of them in his

present bungalow & it was the Ex. Engineer who suggested that the cost of the electric fittings would be paid for by including those items in the estimate and getting approval As the present proposal to pay Mr. Gaume emanated from the P.W.D. it seems preferable to consult the C.E. U.O before addressing the Govt

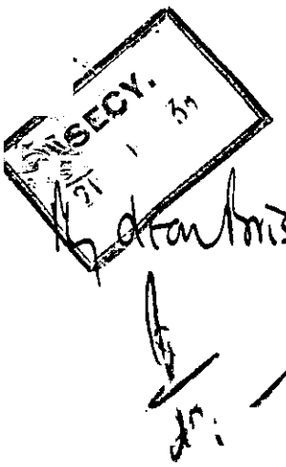
Draft submitted.

23/12/37.

S

[Revenue Bd's Reference No. E-3225/37-4 dt 3.1.38].
£480/- - from the Govt., P.W.D.



Chingleput Collector's office,
Saidapet, 19th Feb.1938.

Buildings - Government - (South Kanara) - Collector's bungalow - electrical fittings - Board's Ref. E- 3225/37-3 dated 3-12-1937 and my letter dated 8-12-1937.

Would you please let me know what the position is with regard to the electric light fittings? They have now been in use of successive Collectors for nearly two years out of their total service of three years. If I am not going to be paid for the fittings, surely the sooner I start to try and and get rid of them, the better.

Yours sincerely

F.R.Brislee Esq. I.C.S.,
Secretary to the Bd.of Revenue.

the Collr. of S. Kanara and their orders are awaited. The following D.O. reply Mr. Gaunt and the D.C. to Govt above noted for favour of approval

D.O. No 109
